

...Jennifer Thomson

is an artist who specializes in color, inspired by Goethe's and Rudolf Steiner's work on color.

Her landscapes are soul expressions reflecting two worlds in form and color; the inner soul world and the outer world of Nature.

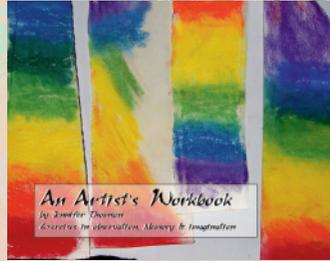

She studied in traditional art schools in the USA, and in Switzerland with master artist, Beppe Assenza. In the mid 80s she directed a painting training in Ghent, New York.

For many years she has taught painting in various settings: in a college program in

California, an art course in England, and in workshops and summer conferences in various states and Switzerland.

Jennifer has written a book for artists:

...An Artist's Workbook

She has exhibited her art in the USA and also in Switzerland.

She is a full-time artist and has her home and studio 'Sun Studio' in Crestone, Colorado, where she offers an August Art Retreat and a Landscape Painting Retreat every summer.

Bruce Pennetti is our cook.

He will prepare for us organic, vegetarian snacks and lunches each day.

Bruce is a former Waldorf class teacher, who has also enjoyed years of catering and hospitality work.

A musician as well, you may hear some afternoon harp music in the air as you are painting...

Sun Studio Landscape Painting

RETREAT 2021

August 19 thru 22

with Jennifer Thomson

A time to venture into Nature

in an environment of peace with bird sounds, a stream of gurgling water, a gentle wind blowing through the trees, the smell of pine penetrating the air.

It is a time to quiet ourselves and be observant. Four intensive days painting the landscape, we move deeply into our natural environment to enliven our imagination in portraying it with our palate of colors.

Each day begins with a 22x30 watercolor painting: and color studies inspired by Monet.

Also light and dark composition with liquid charcoal, and a playful study with sand and colored inks. We will explore water and clouds using different techniques with brush in hand.
